

**Fig. 1**

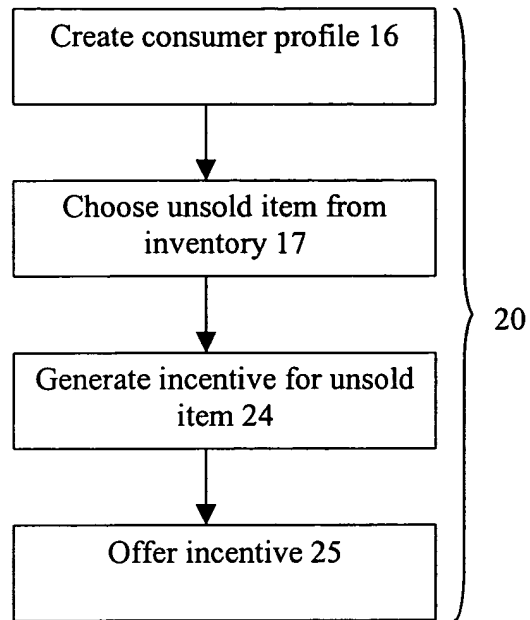

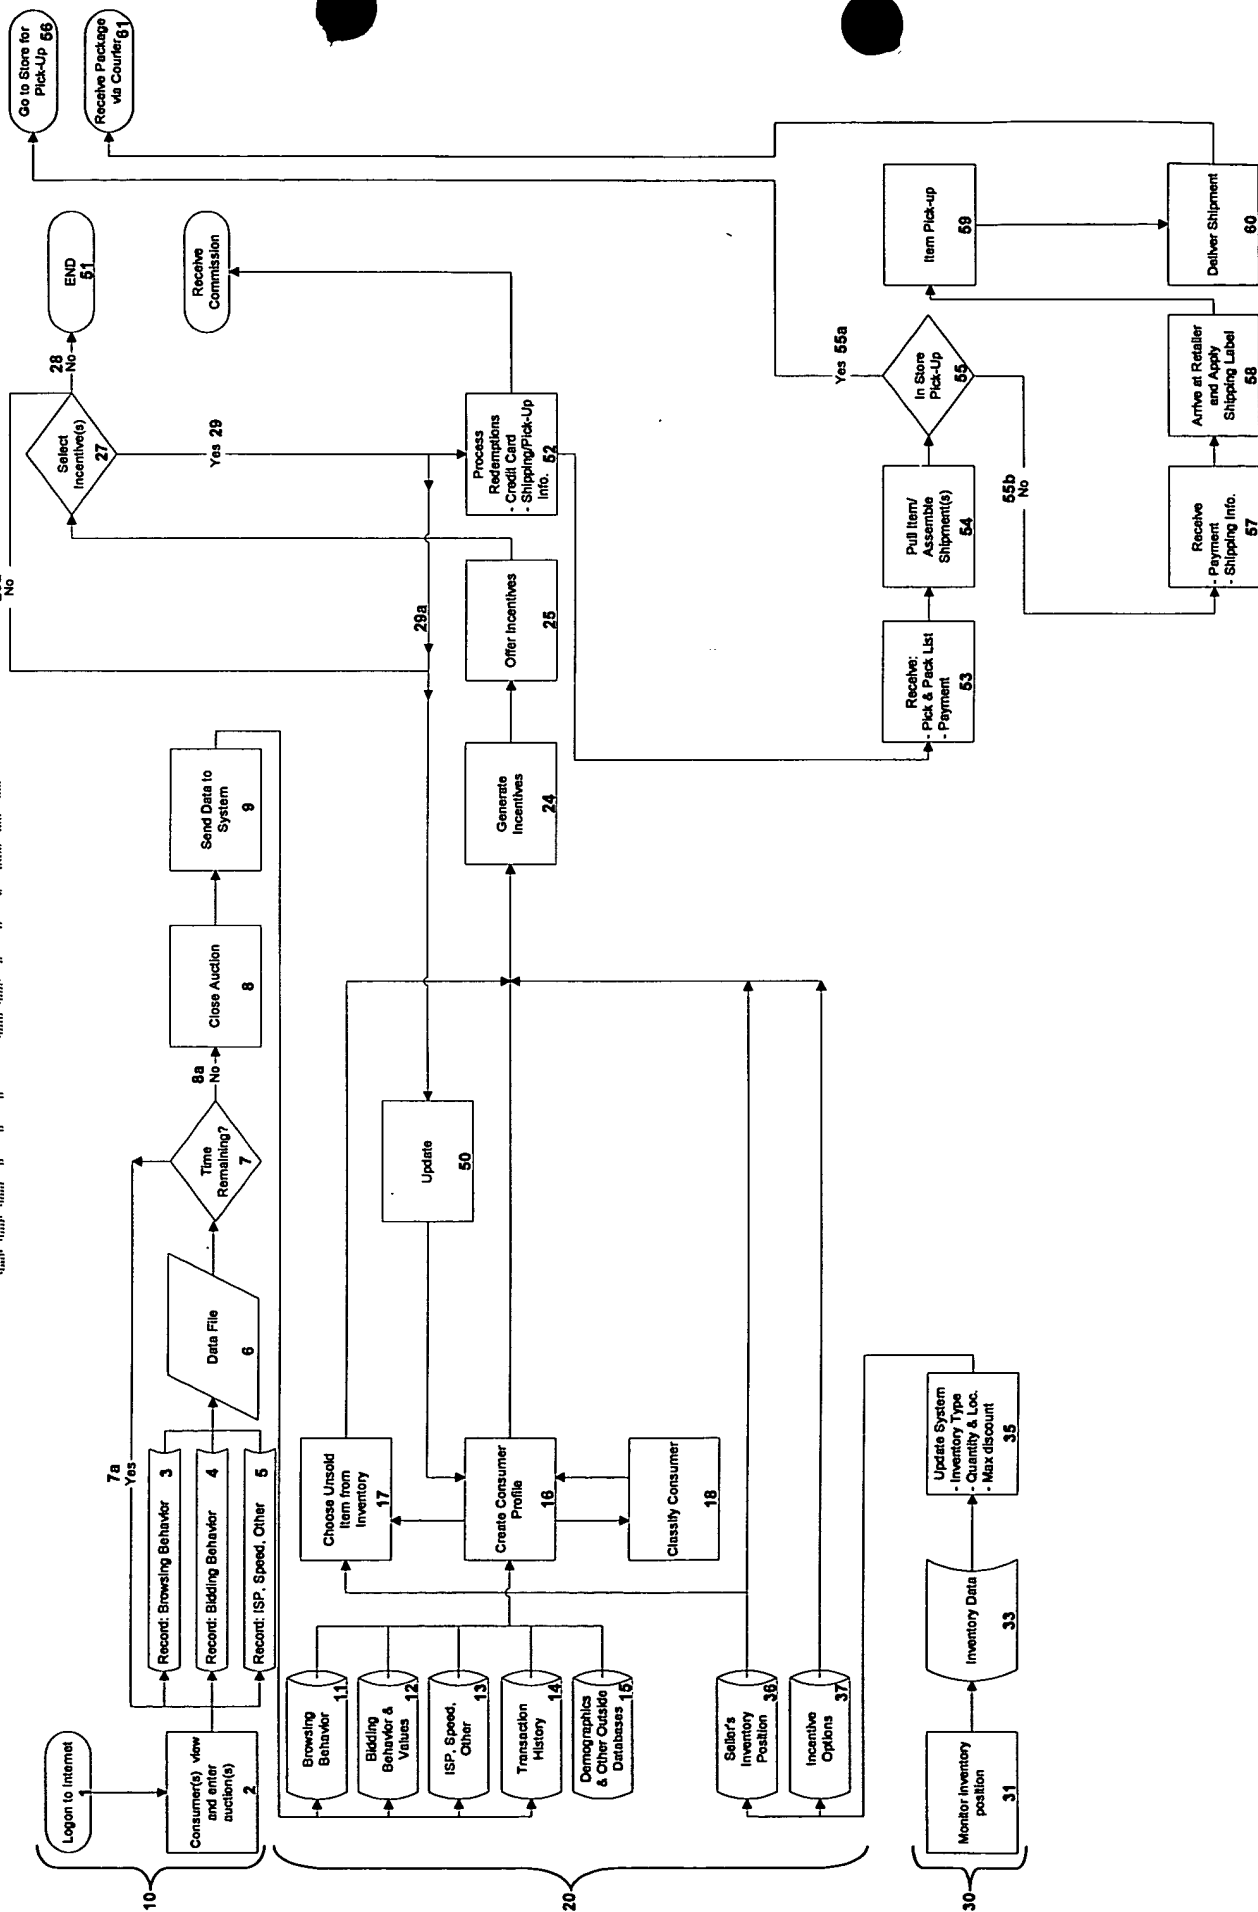

Fig. 2

FIG. 2 is a flowchart illustrating a method for conducting an auction and providing incentives to consumers.

**Fig. 3**

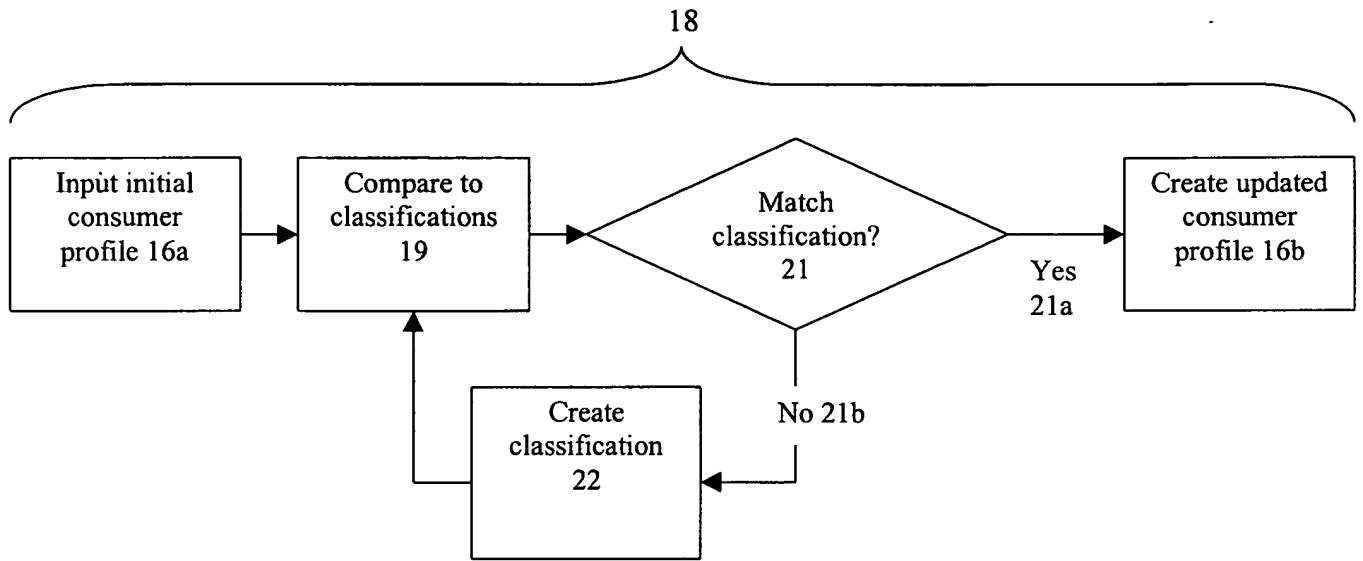

Figure 4 shows three box plots (A, B, and C) representing the distribution of prices for three different goods. The y-axis is labeled "Price" and has an arrow pointing upwards with the word "Increasing" next to it. The x-axis is labeled "Goods" and has three categories: A, B, and C. Each box plot shows the minimum, first quartile, median, third quartile, and maximum values. The distributions are as follows:
